

Winter Education Programs Friday & Saturday, Feb. 22 & 23

SEAOSC will present Winter Education Programs Friday afternoon and all day Saturday Feb. 22 & 23. Participants may attend one, two or all three sessions (best value). Please visit www.seaosc.org or see the flyer in this newsletter for information on special pricing.

Session 1 Friday, Feb. 22 will cover “Blast Resistant Design” by Joe Magallanes & John Crawford, Karagozian & Case; and “Structural Failures that Could Have Been Avoided” by Mary Ann Phipps, Estructure.

Session 2 Saturday, Feb. 23 will include “Wind Design on Solar PV Panes” by Ron

LaPlante, DSA San Diego; “Seismic Design on Solar Arrays on Flat Roofs” by Karl Telleen, Rutherford & Chekene.

Session 3 Saturday, Feb. 23 will include “Understanding Earth Retention Systems” by David Cefali, Cefali & Associates; and “Recent Updates to the Masonry Design Code” by Chukwuma Ekwueme, Weidlinger Associates.

View program abstracts, speaker biographies and register online at www.seaosc.org, or see the flyer in this newsletter. Special pricing!

President’s Message

By Joe LaBrie, SE

Let’s Learn and Grow ...Together

Perhaps one of the most noteworthy benefits SEAOSC offers to its members, is the opportunity to learn from one another. While we regularly celebrate socialization and the exchange of ideas and experiences among our members during Association meetings, the supplementary educational opportunities are also of paramount importance. In fact, this past January our Association sponsored a total of four excellent opportunities for such personal development, and many of our members joined in.

As a result, we were exposed to the current condition of California’s Hospital Building Seismic Retrofit Program, structural vulnerabilities associated with our region’s power distribution infrastructure, critical design issues and consequences that stem from water on the roofs we design, and the latest policies of the Los Angeles Department of Building and Safety. The next time you see Doug Thompson, (STB Structural Engineers, Inc.), Larry Kaprielian (KNA Consulting Engineers, Inc.), Tim Kaucher (Simpson Strong Tie), Ifa Kashefi (City of L.A. Dept. of B&S), Casey K. Hemmatyar

(Pacific Structural & Forensic Engineers Group, Inc), and Francisco Garcia (M&F Design Engineers) be sure to thank them for making these educational sessions possible!

I am amazed at the flood of mail and email that I receive every day advertising: seminars, webinars, conferences, and conventions. I wish I had the time (and the money) to learn from each of the offering sources; but I don’t...none of us do. We must be discerning, and it must start with our Association selecting issues most relevant to our region and to our engineers. No one should care more about the important structural engineering issues unique to Southern California than the members of SEAOSC.

Please save the dates February 22 and February 23 on your calendar for SEAOSC’s Winter Educational Program. This is a tremendous opportunity to increase our technical prowess (www.seaosc.org). Over a day and a half, we will explore five engineering topics that likely influence our professional practice. After the technical session on Friday, we will have a chance to relax and have some fun.

(Continued on Page 2)

WEBINAR

January 30, 2013

Topic: City of LA Research Report Policy Change & Update
Speaker Colin Kumabe, SE, Plan Check Division, LADBS

Time: Noon-1:00 pm

Cost: Members: \$75, Nonmembers: \$150, Member of any SEA: \$100

Register online at www.seaosc.org. See flyer in this newsletter for abstract and details.

LOS ANGELES DINNER

February 6, 2013

Student Awards Night

Topic: The Art & Science of Structural Engineering

Speaker: Mikhail Gershfeld, SE, Professional Practice Professor, Cal Poly Pomona

Location: Luminarias Restaurant, 3500 Ramona Blvd., Monterey Park, CA 91754

Time: Job Fair & Networking: 3:30-6:00 pm; Keynote Speaker: 6:30 pm; Dinner: 7:00 pm; Awards: 7:30-8:30 pm

Cost: \$35; Students: Free. (Donations to SEAOSC to offset the cost of student dinner is appreciated.)

President's Message

(Continued From Page 1)

When all is said and done, either we will band and learn together through education and shared experiences to make our profession the best it can be for firms and individuals.... or we won't. With so many educational opportunities coming at us, neither you nor your firms 'need' SEAOSC for continuing education. But just maybe, SEAOSC needs you. While I have a great appreciation for other resources of continued learning and believe we can learn good things from all of them, ultimately we each make choices about the structural engineering profession by our support and participation in the affairs of the Association; particularly our intellectual exchanges at our educational events. Let's learn and grow together so that the best days for practicing Structural Engineers are still yet to come!

SEAOSC ANNUAL EVENTS

Feb. 6:	Student Awards Night Night
Apr. 30:	Deadline to Submit Excellence in Structural Engineering Posterboards
June 6:	Excellence in Structural Engineering Awards Dinner & Past Presidents' Night
August:	Field Day
Sept. 18-21:	SEAOC Convention, San Diego
October:	Buildings At Risk Summit
Oct. 17:	Great CA Shakeout Event

Information regarding these events can be found on the SEAOSC website: (www.SEAOSC.org)

Seminar Registration How-To

Please go to www.seaosc.org for secure online registrations or use the enclosed registration flyers. Be sure to remember to log in to the website as a member to take advantage of SEAOSC's member benefit of member pricing. It is advised to register early to ensure a seat. Please note that confirmations will only be given to those people who register via the SEAOSC Website.

2013 **SEAOSC** Excellence in Structural Engineering Awards

The Structural Engineers Association of **Southern California** announces that the DEADLINE for the submission of entries for the 2013 EISE Awards is **April 30, 2013**.

All members are encouraged to consider entering one or more of their outstanding and award-worthy projects. This is an excellent opportunity for

outstanding work to be recognized, and member participation is encouraged.

The awards will be presented June 5, 2013 at the Annual SEAOSC Awards Dinner. More information will be available soon, including entry information, award categories, and entry dropoff location.

SEAOC

Structural Engineers Association of California

Excellence in Structural Engineering Awards

Now Accepting Entries for 2013

January 15, 2013 - The Structural Engineers Association of California (SEAOC) proudly announces the Excellence in Structural Engineering Awards program for 2013.

All SEAOC Members and Member SE's are cordially invited to participate and are encouraged to submit their best work that demonstrates outstanding achievement and excellence in structural engineering practice and project work.

The 2013 Awards will be presented at the Awards Ceremony during the [SEAOC Annual Convention](#) to be held at the Hilton San Diego Resort & Spa - September 18-21, 2013. Additionally, the Awards will be published in the SEAOC Newsletter and Website and made available to local media, professional journals and press releases through SEAOC's Communications Committee. [Learn more >](#)

The deadline for Entry submission is **Friday, June 28th, 2013 at 5pm** to the SEAOC office.

Daniel Traub, Member SE since 2002; employed at Walter P. Moore & Associates

Email: DTraub@walterpmoore.com

Proudest Accomplishment: Working on museum projects that can be enjoyed by the community.

Childhood Ambition: To have the opportunity to work on large scale projects that use innovative techniques.

Biggest Challenge: To keep up to date with building code changes. First Job Steel medical center building in New Mexico. It was a great opportunity to learn how to design the basic structural elements of a building.

Best Job: Frost Bank Tower in Austin. Our company was able to work with the Architect and Contractor to find unique cost effective structural solutions to fulfill the designer’s vision.

Why Join SEAOSC? Opportunity to meet and learn from accomplished professionals that are passionate about their work.

Next Step: Technology continues to help enhance the collaboration opportunities between the project team. The delivery methods for projects continue to evolve and each individual from the project team has the opportunity to use their expertise to contribute to the project’s success.

Reynold Tang, Member SE since 2008, employed at Saiful/Bouquet Structural Engineers

Email: rtang@saifulbouquet.com

Proudest Accomplishment: My proudest accomplishment was “manning up” and proposing to my college sweetheart of 10 years at her work, just this past year, with her friends and family present to share the moment.

Childhood Ambition: My childhood ambition was to become the world’s best race car driver. I think that is still my ambition today.

Biggest Challenge: My biggest challenge was deciding whether I should attend UC Berkeley because my parents wanted me to or UCLA for graduate school. I ended up listening to my parents.

First Job: My first job was working as a tutor/grader at Kumon Math and Reading Center.

Best Job: Well, if this is being published then my best job would no doubt be working at Saiful/Bouquet, my current employer. Else, it would be working as a juicer at Surf City Squeeze.

Why Join SEAOSC: In all honesty, joining SEAOSC gave me the opportunity to join a group of intellectual minds that focused not only on advancing the field of structural engineering, but also safeguarding the quality of life through proper education of structural behavior and design to circumvent the detrimental effects from natural hazards, e.g. earthquakes, tornadoes, etc. More importantly, SEAOSC allows for like minds to come together and share their knowledge and experiences as a collaborative and collective group. This is what truly makes SEAOSC special.

Next Step: My next step in life would be to finally settle down and have children (one boy, one girl) so my father, who has been saying it for years, can “carpenter a rocking pony out of wood for his grandchildren so they can ride on it while both my father and mother watches him/her with their cup of tea in hand sitting on the couch”.

WELCOME, New Members!

EERI Annual Meeting

Registration for the 2013 Annual Meeting of the Earthquake Engineering Research Institute (EERI) is open online at <https://eeri.org/cohost/registration/eeri-2013-annual-meeting>. The meeting will be held February 12-15, 2013, at the Grand Hyatt Seattle, Washington. With the theme "Building Resilient Communities through Policy and Mitigation," the meeting has much to offer engineers, scientists, emergency managers, and policy makers, highlighting earthquake policy issues while also offering insights from researchers and practitioners from around the country. Two pre-meeting half-day workshops will be held February 12: "The Canterbury Earthquakes—Lessons and Implications for Regions Worldwide" and a FEMA Training on "P-807, Guidelines for Seismic Retrofit of Weak-Story Wood-Framed Buildings." Three optional technical tours are scheduled for Friday, February 15: Preserving and Protecting Historic Buildings in Seattle, Innovations in Earthquake Engineering, and Geologic Hazards in Seattle. More information about all of these events can be found on the meeting website.

The regular registration deadline has been extended! If you register by January 18, the registration fees are \$475 for regular EERI members (\$650 nonmembers) and \$295 for EERI young professional, student, and retired members. For nonmembers who become EERI members, the fee is \$700 -- a combined savings of \$220. After January 18, fees will increase by \$100. The program brochure is available as a PDF on the above registration web page, which also has a link to make hotel reservations. Register today to take part in this program that will deepen and broaden your understanding of earthquake risk reduction, and where you will meet other leaders in the field!

ACE Mentor Program Spotlight Event To Be Held Feb. 28

At the California Club in Los Angeles on the evening of Thursday, February 28 the ACE Mentor Program will honor three firms that have led the ACE effort in local high schools. AECOM Design, Clark Construction and Degenkolb Engineers will be highlighted during the evening for their work in giving career direction to students in the fields of Architecture, Construction and Engineering (the ACE disciplines).

Also to be honored that evening are three individual mentors:
Darrell Fernandez of Parsons Corporation
Lori Guidry of Development Industries, Inc.
Tom Nusbickel, Architect

And three teachers active in supporting the program:
April Gibbs of Valley High School, Santa Ana
Debbie McComas, Marshall Fundamental High School, Pasadena
Mike Zeke, Long Beach Jordan High School

To purchase your ticket or to help sponsor the event, visit www.AceSpotlight.org. For more information about the program please see www.AceMentor.org/579.

New Address for SEAOSC

Colin Kumabe, SE

Colin Kumabe, S.E., is the Chief Metro Plan Check Division in the City of Los Angeles, Department of Building and Safety (LADBS).

He started his career with the City of LA in 1984 and since then, he has been actively involved in streamlining the permit process by developing procedural memos, information bulletins, and staff training.

Colin holds a B.S. in Civil Engineering from University of the Pacific, M.S. Engineering from UCLA, and M.B.A. from Long Beach State University.

Structural Engineers Association of Southern California

Webinar: *City of Los Angeles Research Report Policy Change and Update*

Date: January 30, 2013

Time: Noon-1:00 pm

Price: SEAOSC Members: \$75, Nonmembers: \$150, Member of any national SEA: \$100

This webinar will provide an update to recent policy and procedural changes within the Los Angeles Department of Building and Safety (LADBS) regarding Research Reports requirements for alternate materials/products.

It will benefit structural engineers, architects, and contractors doing business within the City of Los Angeles (LA).

Attendees will:

- discover which materials/products no longer require LA Research Reports with an updated policy,
- learn of LADBS' newly streamlined "One Time" approval process, and
- find out about recently revised policies contained in updated City of LA related Information Bulletins.

To Register: (Online registration only.)

1. SEAOSC Members: **LOG IN** with your username & password to access the member discount.
2. Everyone: Click on tab "**Store/Webinars**"
3. Click on "**SEAOSC Webinars**" in left column
4. Locate the item under "Featured Presentations" and click "Add to Cart"

Notes will be emailed to the address provided 1-2 days before the webinar.

October 5, 2012

Attention: **Scholarship Supporter**
Department of Civil/Structural Engineering
Subject: **2013 SEAOSC Scholarship Awards & Structural Engineering Job Fair**

Dear faculty member/administrator,

The Structural Engineers Association of Southern California (SEAOSC) would like to thank you for continuous support to our annual student scholarship awards. Attached is the student announcement for the **2013 SEAOSC Scholarship**. Please post this announcement at various locations for all your Civil/Structural Engineering students.

Once again, we seek your assistance in the selection of the deserving student from your university. The scholarship award is open for all students but we look to you to nominate the scholarship recipient. We do this as there is no one better than a faculty member who witnesses a student's excellence in both academics and leadership.

Please forward all scholarship submissions along with your nomination no later than Friday **December 21, 2012** to Genti Hajdari at the email address below. Please include the (2) requested items + the optional letter of recommendation for each student. The SEAOSC evaluation committee will determine the scholarship amount a student will receive. It is required that the student nominated attend the awards ceremony to accept their scholarship. We therefore would advise you to select a possible runner-up in the event that the nominated student cannot attend.

SEAOSC leaves the selection process of the most deserving student nominee up to the discretion of the University, and encourages all participating universities to nominate a new student each year and not re-nominate a past scholarship recipient. SEAOSC will accept the University's decision to re-nominate a past SEAOSC scholarship winner as their schools official candidate if they so desire.

In addition to your nominee, we ask that all student resumes collected be sent to us to be included on our **2013 Resume CD**. This CD will be distributed to all engineering firms who contribute to the 2012 Scholarship Fund. Our hope is that the resumes CD will open doors of employment to your talented applicants.

Our scholarship awards ceremony will begin with a Structural Engineering Job Fair. The job fair consists of booths/tables with representatives of firms from the Southern California area where students can inquire about future career opportunities. Last year, over 15 structural engineering firms participated at our job fair and we look forward to a greater turnout this year. It is our hope that your Civil/Structural Engineering Department encourages all engineering students to attend our **Structural Engineering Job Fair**. All students attending the job fair will be invited to stay for the scholarship awards ceremony and dine **FREE** of charge.

If you are not the appropriate contact for your university, please forward this letter and announcement to the appropriate faculty member and notify us of their name so we may update our records.

Thank you for your contribution. Please feel free to contact me for any questions or comments in preparation for this great event.

Sincerely,

Genti Hajdari

Structural Engineers Association of Southern California

Student Awards Night

Wednesday, February 6, 2013

Speaker: Mikhail Gershfeld, SE, Professor Cal Poly Pomona
Topic: "The Art & Science of Structural Engineering"

Abstract: This presentation will explore the art and science of structural engineering and the challenges of the new generation of structural engineers. Structural engineering began with construction of stepped pyramids in 2700 BC, evolving with the development of structural theories and technological developments of the Industrial Revolution during the 17th, 18th & 19th centuries. Exponential progress in knowledge led to more narrow specialization. The modern profession of structural engineering is closely associated with the developments of static technology, as compared to developments of dynamic and information technologies.

Location: Luminarias Restaurant, 3500 Ramona Blvd, Monterey Park, CA 91754

Time: Job Fair & Social Networking 3:30-6:00 pm; Keynote Speaker 6:30 pm;
Dinner 7:00 pm; Awards 7:30-8:30 pm

Cost: \$35; **Students: Free** Donations to offset the cost of student dinners are appreciated.

SPONSORSHIP RESERVATION FORM

ACE Spotlight Awards 2013

Exclusive Presenting Sponsor - \$25,000

The single donor at this level will receive all the benefits listed below:

- 20 reserved seats for the presentation.
- Prominent listing on press and promotional materials
“ACE Spotlight Awards Presented by _____”
- Program Booklet full page inside front cover
- Listing on the ACE Spotlight Awards web page.
- Recognition at the event.

Industry Leadership Circle - \$10,000

Donors at this level will enjoy the benefits listed below:

- 10 reserved seats for the presentation.
- Listing in all press and promotional materials.
- Program Booklet full page outside back cover.
- Listing on the ACE Spotlight Awards web page.
- Recognition at the event.

Gold Sponsor - \$5,000

Donors at this level will enjoy the benefits listed below:

- 10 seats for the presentation.
- A half-page ad in the Program Booklet.
- Listing on the ACE Spotlight Awards web page.
- Recognition at the event.

Silver Sponsor - \$2,500

Donors at this level receive:

- 5 seats for the presentation.
- A quarter-page ad in the Program Booklet.
- Recognition at the event.

Individual Ticket - \$250
