

Nominations Announced for 2014-2015 Board Officers & Directors

The SEAOSC Nominating Committee, chaired by Senior Past President Janah Risha, has announced the following slate of nominations for the 2014-2015 Board of Directors:

- Treasurer: Jeff Ellis, S.E.
- Member SE: Colin Kumabe
- Member SE: Paul Van Benschoten
- Member SE: Joe Valancius
- Member SE: Edgar Plazola

Additional nominations for office of Treasurer and four Directors may be submitted to the Nominating Committee by the membership in accordance with procedures outlined in the SEAOSC Bylaws Article VI, Section 2.

The membership will vote on the presented candidates by email survey in May. Survey responses must be received by 5 pm, Friday, May 30, 2014.

The results of the election will be announced at the June 5, 2014 annual awards dinner at Luminarias in Monterey Park, with the newly elected directors assuming office on July 1, 2014 for a two-year term.

Officers for 2014-2015, according to succession procedure, will be Kevin O'Connell, S.E., President, and Michelle Kam-Biron, S.E., President-Elect. Doug Thompson, S.E. will continue to serve on the board of directors as the Immediate Past President.

Also continuing on the board of directors will be Ryan Smith, P.E., James Parker, S.E. (Orange County), Kelsey Parolini, S.E. (Tri-Counties), and Ken O'Dell, S.E.

The SEAOSC Bylaws are posted online at http://www.seaosc.org/about_bylaws.cfm

Los Angeles Dinner Meeting Wednesday, June 4, 2014

Topic: Past Presidents' Night & EISE Awards Presentation

Location: Luminarias, Monterey Park
Networking: 5:30 pm, **Dinner & Program:** 6:30-8:30 pm

Cost: \$35; Students: \$25; Walkins: \$45; Table of 8: \$245

Orange County Dinner Meeting Tuesday, June 24, 2014

Topic: Alternate Project Delivery: The Risks Every Structural Engineer Needs to Know

Location: Costa Mesa Country Club, 1701 Golf Course Dr, Costa Mesa, CA
Networking: 5:30 pm

Dinner & Program: 6:30-8:30 pm
Cost: \$35; Students: \$25; Walkins: \$45; Table of 8: \$245

Webinar

Thursday, June 26, 2014

Topic: 2013 CBC for Concrete Anchorage Emphasizing Post-Installed Adhesively Bonded Anchors

Time: Noon - 1:00 pm

Cost: Members: \$75, Nonmembers \$150, Member of any SEA: \$100

Annual Golf Tournament

Monday, August 25, 2014

Save the date!

Location: Friendly Hills Country Club, Whittier

President's Message

By Doug Thompson, S.E.

Dear colleagues, friends and fellow members,

My term as President of SEAOSC is nearing its end and this will be my last President's message before we change Boards and Presidents as of July 1. Looking back on the past year, I am grateful for the accomplishments our Board, Committees and Association have made. We have three newly formed committees that have not been around for many years, they are:

Our **Education Committee** co-chaired by Rachel Gutmann & Tim Kaucher, provide us with informative dinner meeting presentations, seminars and webinars.

Our **Image & Public Relations Committee** co-chaired by Emily Morris & Marcela Opie provide us with proper communications with media and other organizations in

our field.

Our **Membership Committee** chaired by Nolan Lenahan. These three committees organize membership drives, welcoming new members as well as organizing membership appreciation events.

Member Appreciation Event at Magic Mountain a Huge Success

On May 4th, SEAOSC's held its annual member appreciation event at Six Flags Magic Mountain. All who attended had a great time at our own special picnic area with BBQ lunch with great entertainment and games. I'd like to thank Kelsey Parolini, our Membership Committee and our Executive Directors Lynn Hanger and Lauren Lucore for all their efforts that

President's Message

(Continued From Page 1)

made this event such an enjoyable day.

SEAOC Supports the US Resiliency Council

In January, the SEAOC Board of Directors voted to support the US Resiliency Council (USRC). One of the elusive goals of the earthquake engineering community has been the development of a rating system for buildings that communicates risk in consistent, reliable terms understandable to tenants, owners and other stakeholders. Such a rating system would inform the public about the anticipated earthquake performance of the buildings they live and work in and hopefully stimulate discussions that could bring public and private market forces to bear to encourage the seismic rehabilitation of hazardous buildings.

The USRC will award Ratings, based upon submitted earthquake performance evaluations, much like the US Green Building Council® issues LEED® ratings for submitted sustainability/environmental evaluations. The USRC will establish in cooperation with SEAOC an accreditation program and peer review program for professional engineers who wish to employ the rating system. These features of the USRC rating process and accreditation program are a direct response to the building community stakeholders' need to ensure the long term integrity of the rating system.

USRC has reached its initial funding goal and is now in the process of organizing the business side of the operation and policies. Just recently the four MO's of SEAOC voted to support the USRC and as such will make SEAOC a financial contributing Founding Member of the Organization. Founding members will help establish initial priorities, long-term strategy of the USRC, and benefits of membership. If you have an interest individually or for your firm or organization to become a founding member of the USRC please contact Ron Mayes (rlmayes@sgh.com; (415-343-3031)) for further details.

Retrofitting of Buildings in Los Angeles

Michael Cochran (SEAOC President), Kevin O'Connell (SEAOC President-Elect) in addition to myself continue to meet with Lucy Jones with the City of Los Angeles' mayor's office and the LADBS working on ways to enact retrofitting of buildings in our cities. More than ever, the time is right for this and we will keep you informed on the progress as this develops.

Farewell Message

Over the last year our Board of Directors has been dedicated to serving the members of our Association. I would like to thank the Board of Directors and SEAOSC's executive director for their efforts over the past year helping to guide SEAOSC into the direction we have taken. At this time it's time to express sincere gratitude to the outgoing board members; Francisco Garcia P.E, Ifa Kashefi S.E, Diana Nishi S.E, and Daniel Traub S.E. Continuing on the board as second year directors will be Ken O'Dell S.E, James Parker S.E, Kelsey Parolini S.E. and Ryan Smith P.E. In addition, I would like to thank our outgoing Past President Joe LaBrie for his guidance.

I look forward continuing on the Board of Directors as the next SEAOSC Immediate Past President. It is with pleasure that I turn over the leadership of our Board of Directors to Kevin O'Connell. Our Board of Directors along with our committees and realignment plan has a lot of momentum right now to take our Association ahead. I have no doubt that Kevin has the leadership qualities and integrity to lead us. I urge all of you to rally behind and support our new president Kevin O'Connell.

I thank you for your trust in me and it has been an honor to serve as your President.

To all of you, thank you for being a part of this association.

Doug Thompson

2014 Structural Engineering Review Seminars

(June – October 2014)

BYA Publications is pleased to announce the 14th consecutive year of the most comprehensive SE Review seminars. The 14 session expanded program is comprised of 95 hours of detailed and interactive presentations covering great selection of problems targeted for the NCEES SE exam. The program is taught by some of the most prominent experts of the field including **Dr. Michael Engelhardt, PE; Chris Tokas, SE; Kelly Cobeen, SE and Dr. Chukwuma Ekwueme, SE.** The seminars also include discussions of most recent developments in areas of structural and seismic engineering. For complete course details and registration information please see

Register by May 15 and save \$400

In Memorium
Bohdan Nicholas (Nick) Horeczko

April 24, 1939 - April 8, 2014

SEAOSC Member since 1972

It is with great sadness that the family of Bohdan Horeczko announces his passing at his home suddenly on the morning of April 8th, 2014 just days before his 75th birthday celebration. Bohdan (whom many called "Nick" or "Bodyo") was born on April 24th, 1939 in Ukraine. As the oldest child, he was a great help and comfort to his parents and younger siblings during hard times as refugees during the Second World War. Through the generosity of Catholic Charities they were sponsored to start their lives as Americans, working the cotton fields and factories in rural Bennettsville, South Carolina. Bohdan's father, Mykola, an educated man and Ukrainian Catholic priest, moved the family to California specifically so that his children may benefit from its rich educational opportunities.

Bohdan worked throughout his time at St. Agnes High School to help support his family. He graduated from Loyola University with a B.S. in Civil Engineering. While in the Army National Reserves he met the love of his life and the beloved mother of his children, Carolyn (née Dennis). They toiled long and hard together to raise a large, loving, Christian family. Early on, lean times included simultaneous employment as a civil engineer, beginning a new family, and Army Reserve obligations, all during which time he completed an M.S. in Civil Engineering at Long Beach State University. Throughout his life Bohdan lived every hour of every day with the sole purpose to love and serve God and to love, protect, and provide for his family. He loved to spend time with them, poke around the garden, or take as many trips as possible to Wrightwood, California where the family rested and reveled in the mountains, forests, and creeks of the Angeles National Forest. The

years blessed him with seven children, seven grandchildren, many friends, and the respect and admiration of his colleagues. He was a devout Catholic, family man, and proud American.

Bohdan is preceded in eternal repose by his parents, and his brothers Yarema ("Andrew") and Teodoziy ("Ted"). He will ever be remembered and loved by his wife Carolyn; his daughter Stephanie; his daughter Christina, son-in-law Kurt, and grandchildren Dylan and Catherine Giles; his son Gregory and grandchildren Anna and Nicholas; his son Matthew, daughter-in-law Deborah, and grandchildren Grace, Clara, and Danieljohn; and his sons Timothy, Daniel, and Luke. Sharing in their love and sorrow are his brother Yuriy ("George") and wife Mika and their children and grandchildren; his sister Tamara ("Maka") and her children and grandchildren; his brother Volodymyr ("Walter") and wife Mary, and their children and grandchildren; and many relatives in western Ukraine.

A rosary will be prayed for the repose of his soul at McNerney's Mortuary on Sunday, April 13th, 2014 at 7 pm. Mass will be officiated by Fr. Myron Mykyta at Mary Star of the Sea Church on Monday, April 14th at 10:30 am. Interment will follow at Green Hills Memorial Park.

Please sign the guestbook at mcnerneymortuary.com or dailybreeze.com.

Six Flags Membership Appreciation Event

May 4, 2014

On behalf of the SEAOSC Board and Membership Committee, thank you to all who participated in the SEAOSC Membership Appreciation event. By all accounts, it was a great success! Also, a big thank you to the YM members who volunteered at the front will-call table!

Based on the event feedback and the prior success of last year's Day At the Races event, the Membership Committee will continue to host an annual family-centric event in spring and SEAOSC needs help from the members! We would like to begin planning next year's 2015 event early so we can secure low group prices. We have many group-event opportunities open to us so as the year progresses, if you attend any events or hear of any ideas please send me a quick note with your suggestions.

Thanks again,
Nolan Lenahan, Membership Committee Chair
Kelsey Parolini, SEAOSC Director, Membership Committee

(Continued on Page 7)

Six Flags Membership Appreciation Event

My daughter (center) and I had a great time riding the roller coasters, especially Goliath (far left)! We also had fun at the picnic and were proud to make it to the "elite eight" in the water balloon toss! Beautiful weather and short lines made this a great day! Thank you to everyone who helped to organize the event. Its great to be a member of SEAOSC!

“Alternate Project Delivery: The Risks Every Structural Engineer Needs to Know”

The presentation will cover a basic overview of Integrated Project Delivery (IPD) and Design Build from pre-bid work through construction, highlighting the risks and benefits that may not otherwise be as prevalent with traditional design-bid build projects. The speaker will discuss key contract terms applicable to both Architects and their consultants, focusing on fundamental concepts to support highly collaborative projects.

Kymerli Aguilar, Senior Counsel, Hanson Bridgett LLP

Kym helps public and private owners, designers, and contractors avoid or resolve construction disputes on commercial/industrial projects and public works of improvement. She has been integrally involved with litigating, arbitrating, and mediating matters concerning claims for delay and impact, design deficiency, payment disputes, cost overruns and construction defects. Kym also advises clients regarding the planning of construction projects, including negotiating and drafting complex construction agreements. She is familiar with and supports both traditional and alternative project delivery methods, including design-build, Integrated Project Delivery (IPD), Lean Construction and the use of Public-Private Partnerships.

Location: Costa Mesa Country Club, 1701 Golf Course Dr, Costa Mesa, CA

Time: Registration and Networking 5:30pm, Dinner 6:30pm, Program 7:30-8:30pm

Webinar: 2013 CBC for Concrete Anchorage Emphasizing Post-Installed Adhesively Bonded Anchors

Thursday, June 26, 2014

As California adopts the 2013 CBC, understanding the new concrete anchorage requirements is essential for those who specify and/or approve anchors used for structural and nonstructural attachments. There have been significant changes made to Appendix D of ACI 318-11 as well as ASCE 7-10. Similarly, changes made to the testing requirements of ICC-ES AC 308 for adhesive anchors have recently been adopted by ICC-ES. This presentation will elaborate on the relevant changes in the reference standards & evaluation criteria, as well as explore the effects from these changes to the design, detailing and performance of adhesive anchors under the 2013 CBC.

Speakers:

Colin Kumabe, S.E. Chief Metro Plan Check, Division in the City of Los Angeles, Dept. of Building and Safety

Jason Oakley, P.E., Simpson Strong Tie, Anchor Systems Field Engineer

Howard Silverman, P.E. Senior Staff Engineer, ICC Evaluation Service, LLC

James P. Hackett, S.E., Principal, Code and Policy Development, Division of the State Architect

Hilti representative, To Be Decided

Time: 12:00pm-1:00pm

Cost: SEAOSC Members: \$75, NonMembers: \$150, Members of any SEA \$100

JOB WANTED

Sales & Marketing Position Desired

John Saggiani 714-756-0001 johnsaggiani@gmail.com

- 30+ Years in the Sales and Marketing of Engineered Wood Products for Weyerhaeuser Corp, Trus Joist Corp. San Diego Pre-stressed Concrete (a Division of Rohr Industries), Honeywell International, California Division of Highways – Bridge Division.
- 4+ years Consulting for Wood Works, RedBuilt Engineered Wood Products, Stand Structures, California TrusFrame and LiteSteel Beam Corp.

Skill Highlights

- Presentation of New Products and Applications, with a focus on major efficiency and economic improvements over the status quo.
- Exercised the required skills to communicate with Owners, Specifiers, Contractors, Building Code Officials and related Trades.
- Ability to relate to the needs of all clients in the product decision chain.
- Maintain long term Customer Loyalty by demonstrating a commitment that I work for them.
- Maintained # 1 sales ranking prior to entering the Market Development Manager and Consultant Roles.

Education: Bachelor of Science, Civil Engineering - University of California, Berkeley, Ca, USA

JCE STRUCTURAL ENGINEERING GROUP, INC.

Project Manager/Project Engineer/Structural Designer/Revit Draftsman

We are seeking highly technical & motivated individuals. Great opportunities for growth & advancement in career. Positions are available for engineers with 5+ years of experience. Projects include Seismic Retrofit and new Construction of Buildings. These projects include: New Construction of Schools, Colleges, Universities, Hospitals, High-Rise Buildings, etc. Our Seismic Retrofit projects include the use of Performance Base Design.

Desired Qualifications:

- MS degree in Civil Engineering with a Structural emphasis.
- CA P.E. Minimum / S.E. Preferred
- Strong Seismic Engineering background.
- Strong analytical skills & experience in Structural Engineering Software, including ETABS, SAP, RAM, etc.
- Excellent written, verbal communication skills, teamwork skills and self motivation.
- Ability to work on multiple and variety of projects.
- Project Management Experience
- OSHPD, DSA, Revit experience is a plus.

E-mail Cover Letter and Resume to: jceinfo@jcesegroup.com

STRUCTURAL ENGINEERING – PROJECT ENGINEER

LPA is seeking engineers to expand the structural design team. Candidates will be responsible for structural design of major projects including steel, concrete, masonry and/or timber structures, finite element modeling and analysis, preparation of structural calculations, creation of construction documents and coordination within the integrated design process.

SKILLS AND EXPERIENCE: Appropriate candidates will have experience in advanced structural analysis, in-depth knowledge of the seismic provisions of the California Building Code and the ability to develop detailed construction documents. Candidates should demonstrate creative thinking in resolving complex structural design problems as well as good communication skills and have a team oriented attitude.

POSITIVE ATTRIBUTES INCLUDE:

- PE licensure in the state of California
- 3 years to 7 years of experience in structural design of buildings
- Experience with ETABS, SAP, SAFE, RAM & RISA

For more information about LPA, visit www.lpainc.com
Apply at <https://home.eease.com/recruit/?id=1855481>

STRUCTURAL ENGINEERING – PROJECT MANAGER

LPA is seeking a Structural PM who will be responsible for leading a team in the design of major projects, including conceptual design, construction document preparation and coordination between design disciplines. You will be the leader of a structural engineering team in the initiation and execution of engineering projects for the firm. You will:

- Provide structural design and manage staff for projects.
- Oversee Quality Control/Quality Assurance within the Structural Engineering discipline.
- Ensure the scope of work has been properly defined & fulfilled.
- Work closely with internal and external team members to establish and monitor schedules and budgets as they relate to Structural Engineering services.
- Review the drawings and spec's during all phases of design.
- Develop Structural Engineering team competencies to support efficient high quality design.
- Help develop & maintain stable, motivated staff & high morale.
- Actively mentor team members to provide them with the vision necessary for their professional and personal growth.

SKILLS AND EXPERIENCE: Appropriate candidates will have experience in advanced structural analysis, in-depth knowledge of the seismic provisions of the California Building Code and the ability to develop detailed construction documents. Have creativity, organization, communication, and leadership skills.

POSITIVE ATTRIBUTES INCLUDE:

- Registration as a California Structural Engineer
- BS degree required, MS degree preferred
- Minimum of 10 years.
- Experience using ETABS, SAP, SAFE, RAM and RISA

For more information, please visit: www.lpainc.com
Apply at <https://home.eease.com/recruit/?id=41113>
