

## Webinar

# Cold-Formed Steel Framing and Shear Wall Design

Wednesday, March 25, 2020  
12:00pm-1:00pm

### Webinar:

This presentation will discuss the design procedure for cold-formed steel frame and shear wall buildings. Specific areas of focus will include:

- Recent changes and updates to the CFS design code
- Developments in the CFS industry standards
- Available types of CFS Lateral Resistance Shear Walls
- Bridging requirements for CFS shear walls - And more!

### Speaker:

**Fernando Sesma**

Director of Technical Service  
Cemco
