

Annual Career Fair & Student Scholarship Awards Night

with Presentation on:
Structural Engineering Career Guide for the New Decade

Wednesday, February 5, 2020

Presentation: Structural Engineering Career Guide for the New Decade

Discover the latest in best practices to jump-start and thrive in your structural engineering career in this age of disruption. With the rapid rise of new technologies such as complex automated structural analysis software, social media networks, and building information modeling, the typical career advice given a few years ago is now outdated. Learn how to choose your first structural engineering position, when to stay in or leave a company, and how young engineers can take advantage of the latest technologies and social media trends for career growth and advancement.

Moderator:

Cheng Song - Senior Application Engineer - RISA Tech, Inc.
