2016-2017 SEAOSC Legislative Committee Charges

SEAOSC Vision

The Structural Engineers Association of Southern California (SEAOSC) is the premier professional organization to which local Structural Engineers belong. The organization serves its members in the noble profession of structural engineering by fostering and promoting the contributions of structural engineers to society.

SEAOSC Mission

SEAOSC is a member-centric organization, where substance and image are equally promoted through fiscally responsible management and optimization of the benefits to the members. SEAOSC leadership and membership will strive to reach the ideals represented by the following five pillars of the association: Membership Value, Image & Advocacy, Codes & Standards, Education, and Legislative Participation.

SEAOSC Legislative Participation Pillar Mission

Create policies and guidelines that represent the interests of our members to local and state legislative bodies and representatives. Provide forthright support to local jurisdictions as needed to enact local mandates and code amendments.

SEAOSC Legislative Committee Mission

Provide a forum to monitor, research, and advocate for improving legislation of interest to structural engineers.

SEAOSC Legislative Committee Standing Charges

- Review and take positions on legislation and regulations and help coordinate action when appropriate
- Propose legislation and regulations of interest to the structural engineering profession that protects the health, welfare, and safety of the public
- Act as a technical resource to legislators and regulators and their respective staff regarding structural engineering issues

- Meet with other groups that represent parties that have an interest in legislative and regulatory issues, and wherever possible attempt to coordinate its legislative and regulatory program with organizations with similar interests
- Keep membership informed of legislative and regulatory issues
