WEBINAR

GOING BACK TO SCHOOL – PANEL DISCUSSION BETWEEN PROFESSORS AND PRACTICING ENGINEERS

Wednesday, April 14, 2021
12:00pm-1:00pm

Moderator:

Kyle Wilson
South Pacific Regional Engineer,
SidePlate Systems, Inc.

Speakers:

John Lawson, PE, SE
Professor, Cal Poly San Luis Obispo

Henry V. Burton, Ph.D, SE
Associate Professor, UCLA

Jeff Crosier, SE
Senior Principal, Miyamoto International, Inc.

Mit Gala, PE
Senior Engineer, Nous Engineering

About the Webinar:

Students are often offered several courses at the beginning of each semester/quarter. Careful planning and striking a balance between breadth and depth classes can help distinguish a student's profile and make it more attractive to the recruiters. This panel discussion event will include a discussion/dialogue between 2 professors and 2 practicing engineers (PE & SE) on the courses being offered to students in universities and the expectations a design firm has from new hires, facilitating a smoother transition of fresh graduates from college to industry.

Wednesday, April 14, 2021
12:00pm-1:00pm

Individuals: Members - \$25, Non-Members - \$50
Firms with 2-5 Employees: Members - \$100, Non-Members - \$175
Firms with 6+ Employees: Members - \$200, Non-Members - \$275
